Rajesh Pareek

Backend .NET Developer | Full-Stack Engineering

rajeshpareekdevo@gmail.com | +91 7665386328 | LinkedIn | GitHub

Professional Summary

Backend-focused Software Developer with 3 years of experience building production software for multi-tenant SaaS, logistics, and operational platforms. Strong in C#, .NET 8, ASP.NET Core, REST APIs, Entity Framework Core, SQL Server, PostgreSQL, authentication, authorization, background processing, and Azure. Experienced in database optimization, production troubleshooting, CI/CD, and collaborating across backend, web, and mobile applications. Hands-on with React, TypeScript, Redux Toolkit, and React Native for end-to-end feature delivery.

Technical Skills

Languages: C#, SQL, JavaScript, TypeScript
Backend: .NET 8, ASP.NET Core, Web API, REST APIs, Entity Framework Core (EF Core), LINQ, Async/Await, Hangfire
Databases: SQL Server, PostgreSQL, Query Optimization, Indexing, Stored Procedures, Transactions
Architecture: Clean Architecture, SOLID, Dependency Injection, Modular Monolith, Multi-Tenant SaaS Design
Security: JWT Authentication, OAuth, Role-Based Access Control (RBAC), Token Refresh, Secure API Design
Cloud and DevOps: Azure, Azure App Services, Azure SQL, Azure DevOps Pipelines, Docker, CI/CD
Testing and Monitoring: xUnit, NUnit, Unit Testing, Integration Testing, Serilog, Azure Application Insights
Frontend and Mobile: React, React Native, Redux Toolkit, RTK Query, React Navigation, Responsive UI
Development Tools: Git, ChatGPT Enterprise, Codex, Claude

Professional Experience

Software Developer — In Time Tec **Jan 2024 – Present**
Jaipur, India | C#, .NET 8, ASP.NET Core, EF Core, SQL Server, PostgreSQL, Azure, React, React Native

- Build and maintain production features for transportation and agricultural SaaS platforms supporting 500+ users and drivers.
- Develop and maintain REST APIs with authentication, role-based authorization, request validation, pagination, filtering, and structured error handling.
- Work on multi-tenant backend workflows, including tenant-aware data access, domain-specific business logic, and database operations for web and mobile clients.
- Investigate API and database performance issues using SQL query analysis, indexing, EF Core query optimization, and execution plans.
- Implement and maintain asynchronous and scheduled processing workflows, structured logging with Serilog, and production monitoring through Azure Application Insights.
- Contribute to automated testing, Docker-based development, Azure DevOps CI/CD pipelines, deployment validation, and production troubleshooting.
- Collaborate across backend, web, and mobile development to define API contracts, resolve integration issues, and deliver reliable end-to-end product features.
- Use AI-assisted development tools for debugging, refactoring, documentation, test generation, and development tasks where appropriate.

Selected Projects

Feedlot Manager — Multi-Tenant Agricultural SaaS
ASP.NET Core, EF Core, PostgreSQL, React, TypeScript, Redux Toolkit, React Native

- Contribute to backend services and web/mobile workflows for a multi-tenant agricultural platform, including domain APIs, validation, database operations, and tenant-aware data access.
- Developed frontend integrations using React, TypeScript, Redux Toolkit, and RTK Query; worked on 70+ RTK Query endpoints for API integration, caching, and automated data refetching.
- Built reusable frontend components and form utilities, and contributed to responsive, localization-ready interfaces and mobile workflows.

Roll On Dispatch — Logistics and Driver Platform
ASP.NET Core, SQL Server, React, TypeScript, React Native

- Developed backend APIs and application integrations supporting shipment, driver, carrier, and dispatch workflows.
- Worked on the React Native driver application, including API integration, offline synchronization, GPS/location workflows, push notifications, and native mobile capabilities.
- Contributed to dispatch web features, operational dashboards, route visualization, data exports, and Azure DevOps release and deployment workflows.

Education

B.Tech in Computer Science and Engineering **2020 – 2024**
Swami Keshvanand Institute of Technology (SKIT), Jaipur CGPA: 9.6/10
Affiliated with Rajasthan Technical University (RTU)
